Rotaplast International is one of the few humanitarian medical organizations that has non-medical volunteers working side-by-side with our medical volunteers to produce missions that change lives forever. All of our volunteers are expected to adhere to the same standards of professional conduct that are expected at any business or hospital at home. Rotaplast’s reputation is built on the professional conduct and safety of our teams. Missions are not for casual travelers. If your plan is to sightsee, party, or vacation, a Mission experience is not for you. While we try to make you as comfortable as possible, you can expect long working hours, physical exhaustion and basic lodging (sometimes dormitories/barracks).

As a Rotaplast volunteer your commitment is to work hard, behave professionally, and act as a diplomat during the entire Mission. Our volunteers experience a wide variety of local customs and food. They also have life affirming experiences.

Each year we have a limited number of spaces on our missions. As a mission volunteer, we ask you to represent Rotaplast. Upon your return, we consider you part of the Rotaplast family. Together we endeavor to provide the highest quality medical services to children in need around the world.
