AL MANAHIL NURTURE GENERAL HOSPITAL

Written by:Nazifa sied
Student of CGS Upper School

GET TO KNOW MORE ABOUT AL MANAHIL NUTURE GENERAL HOSPITAL

Al Manahil Nuture General hospital is a private,non-profit hospital located in Halishahar,Chattogram.It was established by the Al Manahil Welcare Foundation,a charitable organzation founded in 1998 by Jamir Uddin Nanupur,with the aim of improving the quality of life in the community.The foundation has carried out serveral impactful initiatives,including support during the COVID 19 pandemic through burial service and the establishment of 80 isolation centres across Chattogram.Through its hospital services,the organization ensures that people need receive proper medical care and support.

Internship First day

The day started with the volunteers arriving at the school at 7:30 a.m. and reaching Al Manahil Nurture General Hospital at 8:30 a.m. The doctors were welcomed with garlands,which some volunteers had the honor of placing it around their neck.The translators began their tasks by guiding patients from the waiting room into the hospital.The Afgun WoofCamp team started attending to patients,and by 9:02 a.m. resistration for children began.Shortly after,volunteers moved on to their assigned tasks and were allowed to look around to familiarize themselves with the patient process.Each child was first taken to register,followed by weight and temperature checks and files documentation,before moving on to pediatric consultation.

3rd year in Bangladesh

2 in Chattogram

1 in Sylhet

Conclusion

Today was a busy and hectic day,but that did not stop me from learning valuable skills and lessons.In one day, I learned so much,which made me realize how much more i can gain and use in my daily life and future career path.This experience helped me understand hospital procedures and showed how teamwork and organization contribute to efficient patient care.The doctors and staff work tirelessly and effortly despite,how stressful and hard working their job are.
